

Lesson Plan

Certified Lean Six Sigma Green Belt (CLSSGB) Training

Course Code: TGS-2025055775 | Duration: 2 days / 16 training hours | Version 1.0

Daily Lesson Plan With Slide Numbers

Day	Time	Topic / Activity	Slides	Trainer Action	Learner Action
Day 1	09:00-09:30	Admin briefing, agenda, objectives and assessment flow	1-9	Brief course rules and project evidence.	Confirm access and select project scenario.
Day 1	09:30-10:30	Lean Six Sigma basics and project selection	21-24	Explain DMAIC, COPQ, Kano and project selection.	Complete Lab 01.
Day 1	10:30-11:30	SIPOC, process map and eight wastes	26-29	Demonstrate mapping and waste identification.	Complete Lab 02.
Day 1	11:30-12:30	Facilitation, stakeholders, Kaizen and A3	31-34	Facilitate stakeholder and A3 discussion.	Complete Lab 03.
Day 1	14:00-16:00	Data collection, KPIs, run charts and Pareto	36-39	Guide KPI definition and charts.	Complete Lab 04.
Day 2	09:00-10:30	Basic statistics and process capability	40-43	Explain centre, spread and defect metrics.	Complete Lab 05.
Day 2	10:30-12:30	Root cause analysis and FMEA	45-49	Demonstrate Fishbone, 5 Whys and FMEA.	Complete Lab 06.
Day 2	13:30-15:00	Countermeasures, 5S, Kanban and poka-yoke	51-54	Guide countermeasure selection.	Complete Lab 07.
Day 2	15:00-16:30	Control plan, standard work and project close	56-59	Coach control and handover plans.	Complete Lab 08.
Day 2	16:30-18:00	A3 presentation, assessment readiness and close	60-61	Review final project story and close course.	Present A3 and complete feedback.

Lab To Slide Mapping

Lab	Title	Domain	Slide No.
01	Lean Six Sigma Basics and Project Selection	Basics and Background	21-24
02	SIPOC, Process Map, and Eight Wastes	Process Mapping	26-29
03	Facilitation, Stakeholders, Kaizen, and A3	Facilitation	31-34
04	Data Collection, KPIs, Run Charts, and Pareto	Analyze Data	36-39
05	Basic Statistics and Process Capability	Analyze Data	40-43
06	Root Cause Analysis and FMEA	Problem Solving	45-49
07	Countermeasures, 5S, Kanban, and Poka-Yoke	Countermeasures	51-54
08	Control Plan, Standard Work, and Project Close	Control and Close	56-59
